

Running a business is like a 24/7 job. Dealing with the Federal Occupational Safety and Health Administration (OSHA) or the Hawaii OSHA (HIOSH) is probably not your favorite activity. Ever-changing standards do not make things easier.

Compliance Solution LLC can help you deal with OSHA or HIOSH in a timely and cost effective manner. Our professional services include:

- OSHA style walk-through surveys which can help you identify and correct hazards *before* an OSHA compliance officer arrives at your site.
- Custom-made written safety and health programs
- Customized employee training
- Case review for litigation, penalty negotiation
- Mold and Indoor Air Quality Investigation, and
- Monitoring for hazardous chemicals and noise.

Besides satisfying regulatory agencies' requirements, providing a safe and healthful work place makes business sense. Morale will stay high and productivity will go up. Fewer injuries translate into less down time, fewer defective products and an improved bottom line.

Manager

Mr. Archie Yu, MS, CIH, MBA, CSP was a HIOSH Compliance Officer for several years. He has experience in compliance issues, industrial hygiene surveys including lead paint, asbestos, and indoor air quality. He is a DOH certified risk assessor and project designer.
